ABOUT ME

Motivated student with leadership experience as a class leader and project leader, with expertise in teamwork, communication, and problem-solving. I have successfully managed to lead teams to meet goals by delegating tasks, managing conflicts, and motivating colleagues. Currently focused on developing mobile apps with Flutter and backend development with Node.js, I enjoy building user-friendly and efficient applications. As I am extremely passionate about technology and innovation, I would like to apply my technical knowledge and leadership capabilities to grow professionally as a mobile app developer. I acquired most of the tech stacks such as APIs, Google Cloud, domains, and web hosting from YouTube and other learning platforms. Being a fast learner, I am always eager to learn from all possible sources.

EDUCATION

2019 - 2027	Bachelor of Information Technology Thanlyin Technological University is ranked 2nd among 33 technological universities, and 8th out of 164 universities around the country. the first ever technological university which has also been certified AUN-QA (ASEAN University Network Quality Assurance) in 2017.
